

# Combo Programs for Custom Blisters.

**A fast, efficient and economical choice in PVC or post-consumer recycled plastic.**

## **Combination runs offer the best of both worlds.**

*A high-quality custom blister with lower tooling cost.*

- Ideal for start-up products or short-term promotions, or for any smaller quantity needs
- Choose from two materials—traditional quality PVC blisters or environmentally-friendly rPET with up to 100% post-consumer recycled content

## **PVC Combo Blister Program.**

*A quick and cost-effective solution*

Order as few as 6,250 blisters. Our state-of-the-art in-house design and tooling ensures consistent dimensions on final parts every time

PVC Combo Program ordering details:

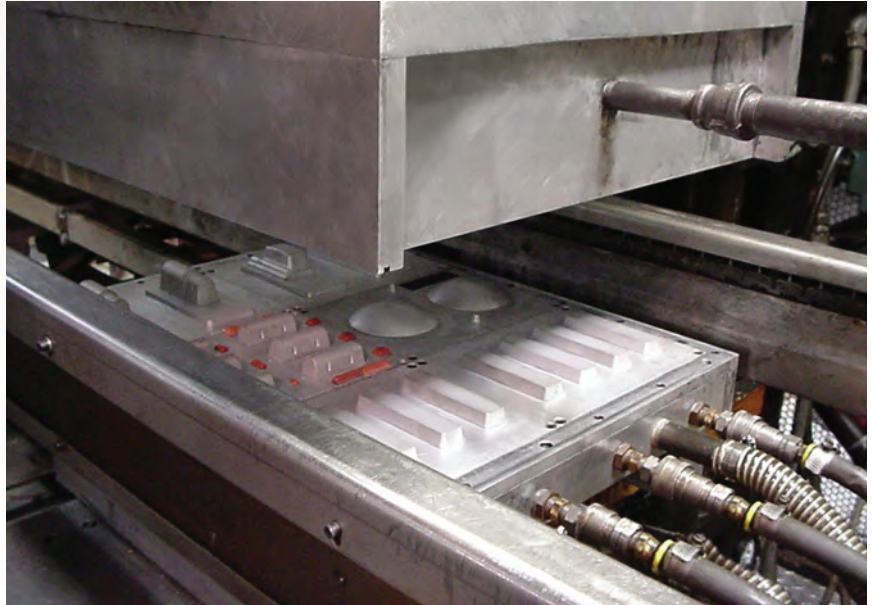

- Order any quantity over the minimum of 6,250 blisters
- Fixed increments are 12,500, 25,000, 50,000 and 100,000
- Available in .010, .012, and .015 mil weight

## **rPET Combo Blister Program.**

*A smart, earth-friendly alternative.*

Post-consumer rPET plastic blisters are made with material that includes recycled water and juice bottles. They are always constructed with the same high-quality and precision as PVC blisters.

**Please contact us for more details on ordering.**

Multiple molds on a combo production run saves time and money.
